Airbrush Tanning **now at home**

The Most Flawless and Simple Way to Tan

Up to 14 days of Tanning perfection!
Natural Even Airbrush Tan Every Time!

Airbrush Tanning

High-end spa-quality airbrush tanning is now available at home with Stream. Airbrush tanning is not a “spray on” dye. Our primary ingredients are formulated to work with the top layer of your skin to produce the most natural browning of the skin, which mimics the look of a real suntan, but without the damaging effects associated with outdoor tanning or UV tanning beds.

Airbrush tanning uses a precision stylus instrument for a smooth, flawless application. Special care is easy in difficult areas, such as the feet, knees, elbows, hairline, and face.

Does not smell • Streak-free • Will not run • Never orange

Our August Tan™ airbrush tanning formula won't rub off on your clothes once the tan is set. Airbrush tanning fades gently, just like a real suntan. Lasts up to 14 days.

August Tan™ features FDA-approved tanning actives that are up to 700% more powerful than conventional self-tanners available in drugstores.

Complete August Tan™ system w/tanning solution, \$150, Tanning solution refill kit, \$28

Tanning Upgrade Kit for Extreme Systems

Now upgrade your Extreme System to tan.
Your Extreme airbrush can easily accept a simple tanning upgrade.
