**100ml £10.00 +VAT**

**250ml £24.00 +VAT**  
**OFFER: £20.00 +VAT**

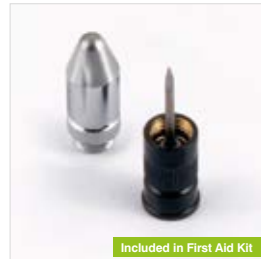

Airbrush Thinner & Cleaner is required to keep your Airbase Airbrush in tip-top condition for your next application.

## Airbrush First Aid Kit

**£20.00 +VAT**

Just like any kind of equipment, with use, some parts of your airbrush will need greater maintenance or may even need replacing from time to time. This First Aid Kit means that you can patch up your airbrush while on location. Contains a spare Needle and spare Nozzle as well as Cleaning Brushes to clear any blockages that may occur. We have also thrown in a Nozzle Repair Tool – just in case!

First Aid Kit combined value is £35.00 +VAT *...saving of £15.00 +VAT*

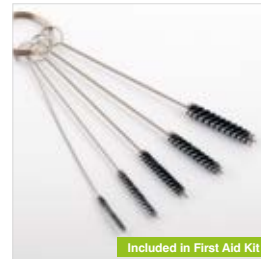

Included in First Aid Kit

### Nozzle Repair Tool

**£5.00 +VAT**

The Nozzle is easily removed and tightened using the tiny spanner provided with your airbrush. However, if you over tighten or drop your airbrush, it can shear off and leave part of the nozzle in your airbrush. This tool ensures this is not a problem and there is no chance of you being left embarrassed in front of a bride!

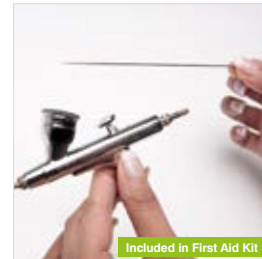

Included in First Aid Kit

### Cleaning Brushes

**£6.25 +VAT**

These nifty little brushes reach where other brushes can't. Flexible and robust they are designed not to leave fibres in your airbrush. When used in a stripped down gun, these brushes clear any obstruction that can occur.

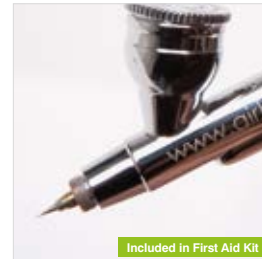

Included in First Aid Kit

### Needle

**£12.50 +VAT**

Needles rarely need replacing, but are a crucial part of the airbrush. Treat with care and it won't let you down. We recommend you carry a spare so you have 'belt and braces' and don't get caught out if an emergency occurs!

Included in First Aid Kit

### Nozzle

**£12.50 +VAT**

Just like tyres on a car, with use, some parts of your airbrush need replacing.

We advise carrying a spare 0.35mm Nozzle for the same reason you carry a spare tyre in your car. Emergencies! Nozzles are easier to change though!
